

100 Years ago in The American Mathematical Monthly

An article in the October, 1914, number of the *Bulletin* of the Society for the Promotion of Engineering Education, entitled “What a technical education costs,” gives the average annual expense of 65 students at the Massachusetts Institute of Technology. This amounted to \$616.39 for students from a distance and \$327.65 for students living at home.

[In 2014 dollars that is \$14,685.49 and \$7,806.26, respectively. -Eds.]
