

### Proof Techniques for the New Millennium

“Proof by intimidation” is so passé. Instead, try one of these.

1. **Proof by clickbait:** One weird trick proves this theorem. Profs hate it!
2. **Proof by democracy:** This theorem will be true after 1000 upvotes.
3. **Proof by Snapchat:** This theorem’s proof will disappear after 5 seconds.
4. **Proof by search engine:** The first link about this theorem says it’s true.
5. **Proof by influencers:** Attractive people think this theorem is true.
6. **Proof by Trump:** Make this theorem great again.
7. **Proof by fame:** My million followers agree that this theorem is true.
8. **Proof by fear:** Only bigots think this theorem isn’t true.
9. **Proof by low resolution:** For proof, see this image: ■
10. **Proof by incompatible format:** For proof, see the attached WordStar file.
