Here are some quotes from these anonymous surveys.

- It was an amazing experience.
- This was a perfect topic.
- It was awesome!
- I had a wonderful time.
- Very well set up.
- The experience, I expect, will have the greatest impact of any professional development activity that I've had during my seven years teaching high school math. That includes earning my M.A.Ed.
- I feel we accomplished meaningful and substantial research in our field.
- Loved the people here. They are what makes the program really distinctive and memorable.
- Seeing professional research has solidified my intent of finding a successful PhD program.
- San Diego is a beautiful city.
- I loved all the different facilities the campus has to offer.
